

## Project Update: June 2024

---

### New Steveston Interchange Takes Shape

*Heavy-lift crane hoisting a 35-metre, 50-tonne girder.*

*Newly installed Phase 1 girders spanning Highway 99.*

If you've driven along Highway 99 through Richmond in June, you will have seen the new Steveston Interchange coming to life.

This past month, crews erected large concrete beams—referred to as girders—across Highway 99. The girders form a platform on which the new traffic deck will be constructed. The project is currently in the first of a two-phase construction process.

During Phase 1, a new structure is being built on the north side of the existing overpass. Once complete, traffic will shift to the new structure and the existing overpass will be safely removed.

During Phase 2, a new structure will be built on the south side, creating the new, five-lane overpass. Throughout almost every step of construction we will keep traffic flowing as we work towards completion of the project in 2025.

You can learn more about the step-by-step process on our [website](#).

## Tunnel Update

As for the Fraser River Tunnel Project, we are nearing the end of the procurement process to select the team to finalize the design for the new toll-free, eight-lane tunnel and ready it for construction. Stay tuned for an announcement soon.

## Community Engagement

Our community events are in full swing. We've been popping up at events across Delta, Richmond and Surrey, with more to come this summer. If you don't see us near you, you can always visit us at our community office at 5180 Ladner Trunk Road (beside Save On Foods) on Wednesdays and Thursdays.

*Team member talking to a Surrey resident at Surrey Fest.*

*Child engaging with 3-D Fraser River Tunnel concept model.*

## Questions and Feedback

Please contact the project team at the email address below or visit the community office if you have any questions or would like to learn more about the Highway 99 Tunnel Program.
